If you paid your co-chief executive \$49.8m last year, you can probably afford a half-arsed compliance department

On the cover Our environment editor Damian Carrington speaks regularly to the world's top climate experts, but lately he noticed many of them seemed to be losing faith in keeping global heating to the 1.5C target. "So I decided to ask hundreds of those scientists what they thought, to get a real feel for what was going on," says Damian. "What they said shocked even me." *Photograph: Getty/Guardian Design*
